

# RISE Logic Model

Resources	Activities	Outputs	Interim Outcomes	Outcomes	Impact
	<b>POLICIES AND RESOURCES</b>				
Steering Committee	Defining career pathways and bridges framework	Statewide agreement on Career Pathways guidelines and operational elements	Career Pathways framework being used in more technical colleges and workforce development agencies	Career Pathways framework institutionalized in WTCS and DWD systems statewide	More low-skilled adults attain postsecondary education
Local and Regional Stakeholders	Identify and propose solutions to policy and resource barriers for WTCS and DWD	Policy Agenda and Action Plan agreed to by SG Team Governor and key policymakers support RISE goals	Policies adopted and implemented by WTCS and DWD  RISE goals integrated into other state policy initiatives, such as the NGA Sectoral Policy Academy	Practices changed throughout systems and statewide  Other state policies support RISE practices and participants	
Other state and regional initiatives	Coordination with other statewide policy initiatives				
	<b>COMPREHENSIVE DATA SYSTEM</b>				
Joyce grant and state matching resources	Define RISE target population and occupations	Target population and occupations agreed to by SG Team	Data about student trajectories is being used in policy and system improvement	State and systems regularly monitor and report on progress toward statewide and institutional transition goals	More Wisconsin workers are in family-sustaining careers
	Data sharing agreements and creation of new database of RISE target population	Special analyses (statewide and district) of transition outcomes and potential benchmarks using new database	Benchmarks agreed to by institutions that commit to addressing transition problems and opportunities		
	<b>ENGAGING THE FIELD (BUILD BUY-IN AND BEST PRACTICES)</b>				
Existing state data infrastructure	Targeted investments for model curriculum and employer engagement protocols	Prototypes developed and system issues identified	Curricula/certificates and industry engagement protocols used by local institutions/providers	Curricula/certificates and industry engagement protocols universally implemented across systems and statewide	Increase economic competitiveness for Wisconsin
	Build local support for strengthening state adult education and skills development systems (including regional initiatives like WIRED)	Local practitioners and officials motivated to support Policy Agenda and Action Plan	Local practitioners and officials use Career Pathways Framework  Target population recruited and served in agreed upon occupations	Increased numbers of target population earning credentials in key occupations
